

DANTE **DISABLED SYSTEMS**

Alarms designed for disabled persons

We have expertise in the whole range of systems for disabled persons to help comply with BS8300, the Disability Discrimination Act and the Care Standard Act.

Disabled Refuge Systems

Offering simple, effective two-way communication to aid rescue teams in establishing where help is needed, and to give assurance that assistance is on its way.

Call Systems / Disabled Toilet Systems

We can provide conventional and addressable systems with a flexible range of Indicator Panels and an extensive range of system components.

Induction Loops

We provide an extensive range of systems from portable units to professional induction loop amplifiers for large and complex applications.
