

DANTE FIRE ALARMS

Helping protect your property from fire

We are independently certified under BAFE SP203 to Design, Install, Commission and Maintain Fire Detection and Alarm Systems. Our range of Wired, Radio or Hybrid Systems including Air Sampling, Intrinsically Safe and many specialised products are versatile and suitable for even the most demanding environments and applications.

Our detection systems may be integrated with Voice Alarm, Access Control and CCTV systems and linked automatically to shut down plant and summon Fire Services either via RedCare, Auto dialler or the latest Emizon IP based secure monitored solution.

Our consultants are **fully trained and certified** to design and develop systems that meet the needs of your premises and fit your budgets whether it be to protect life, property or both.

All our Fire Detection Systems can be fully integrated with Voice Evacuation Systems and we have expertise in the whole range of Audio Systems and Services.

Systems and Services

- Design System
- System Integration
- Voice Alarm Systems
- High quality installed or temporary PA systems
- Studio quality pre-recorded announcements for your sales campaigns

All of our fire alarm systems are designed and installed to comply with BS5839-1:2002 and EN54 regulations.

Have you considered leasing? All electronic fire and security systems provided by Dante can be purchased or leased over a period to suit your needs where capital expenditure is not a feasible option.
