

**DANTE**

# MECHANICAL DIVISION

**From minor projects through to large projects Dante Group are able to undertake and manage each and every project**

**Dante Group delivers a broad range of Mechanical Services for industrial, commercial and domestic installations in both the private and public sectors. From initial design specification, through to testing & commissioning, we pride ourselves in delivering your project on time and in budget.**

We specialise in giving our clients solutions to meet their requirements whether by installing energy efficient sustainable equipment in new installations or when replacing assets that have gone through their life cycle.

Only quality materials are used and we will always recommend the most efficient operating equipment to give best value solutions to our customers.
